Gray, Hong, Bills & Associates, Inc. - Civil Engineering Technician
Gray, Rhee & Associates, Inc. - Draftsperson

Affiliations

Secretary, Crosspointe Community Association - Board of Directors

Mr. Ennis has worked in the engineering consulting industry for over 25 years and has learned first-hand the importance of civil engineering to planning and developing sustainable communities. He joined CP&E in 1996 and currently directs the firm's CADD operations, ensuring that technicians embrace the latest drafting and information technology standards, procedures, and techniques. With a background in civil engineering design, he understands the importance of producing clear, accurate plans and specifications for clients and contractors. Mr. Ennis has been a catalyst for modernizing computer-based operations at CP&E and by assisting staff with the use of the company's network, software, individual workstations, and peripherals, the efficiency of engineering design and administrative tasks have increased dramatically.

Projects for which Mr. Ennis has played a major role include:

- Waiawa by Gentry Master Planned Community
- Department of Hawaiian Homelands Keokea-Waiohuli Subdivision
- Kaupe'a (Village 8) at the Villages of Kapolei
- Waikele Master Planned Community
- Hawaii Loa Ridge
