Mr. Murayama has more than two decades of past experience managing utilities and infrastructure improvements for military, residential, commercial and industrial properties, designing state and county transportation systems, and conducting engineering investigations and feasibility studies.

As Community Planning & Engineering's Chief Executive Officer, he ensures that all project requirements are met through optimal staffing, adherence to schedules, compliance with scope of work and design standards, quality assurance, cost control, and coordination with subconsultants. In this role, Mr. Murayama frequently serves as the liaison between clients and government agencies, ensuring that the objectives of every project are achieved in a timely and cost-effective manner.

Selected projects that Mr. Murayama has been responsible for include:

- Department of Hawaiian Homelands East Kapolei Development
- Waiawa by Gentry Infrastructure Master Plans
- Barbers Point Naval Air Station Site Engineering Investigation
- Pearl Harbor Naval Shipyard Site Engineering Investigation
- Helemano Military Reservation Master Plan
- Republic of Korea U.S. Army Water System Upgrades
- Republic of Korea U.S. Army Sitework Design
- Ali'i State Highway Design - Kona, Hawaii
- Rehabilitation of City & County Roads - Kaneohe, Oahu
