**Career Summary**

Mr. Tanaka is a seasoned professional engineer with a broad range of experience in planning, designing, budgeting, and executing large municipal projects. He has worked in every level of city government from managing and directing career civil servants in the daily execution of municipal projects to directing the operations of an entire city department. His many years of public service have earned him wide respect in both the public and private sectors for his expertise in construction management of large-scale projects. Mr. Tanaka understands the policies and procedures that regulate city government and has extensive experience working with every state and federal permitting and compliance agency.

As Director of Construction Management at CP&E, he insures that all construction projects progress towards successful completion within budget and on schedule. With more than 35 years of "on-the-job" experience, he is a skillful administrator and negotiator who enforces construction-related matters for our clients. As a professional engineer, he understands the construction documents prepared by design professionals and uses this knowledge to anticipate constructability issues before they arise.

A sampling of the projects Mr. Tanaka has been involved include:

- East Kapolei I Development, Kapolei, Oahu, Hawaii – Department of Hawaiian Home Lands
- Offsite Trunk Sewer, Kapolei, Oahu, Hawaii – Department of Hawaiian Home Lands
- Kapolei Parkway Extension, Kapolei Oahu, Hawaii – Department of Hawaiian Home Lands
- 4.0 MG Reservoir and Transmission Main, Kapolei, Oahu, Hawaii – Department of Hawaiian Home Lands
- Keokea – Waiohuli Residential Development, Kula, Maui, Hawaii – Department of Hawaiian Home Lands
- Waimalu Sewer Rehabilitation/Reconstruction Project, Waimalu, Oahu, Hawaii – Department of Design and Construction
